○ a) <aside>

67. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

68. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

69. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

70. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

71. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

72. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

73. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

74. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

75. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

76.   **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

77.   **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

78.   **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

79.   **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

80.   **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

81.   **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

82.   **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

83.   **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

84.   **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) <aside>

85.   **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

86.   **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

87. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) `<aside>`

88. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

89. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

90. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) `<aside>`

91. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

92. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

93. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) `<aside>`

94. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**

○ a) href

95. **What does the `<pre>` element define in HTML?**

○ a) Preformatted text

96. **Which HTML element is used to define a section of content that is related to the main content but not essential to it?**

○ a) `<aside>`

97. **Which attribute is used to specify the URL of an external resource in an `<link>` tag?**
